ABOUT ME

21-year-old Software Engineering student at Eastern Mediterranean University. Experienced in full-stack development, operating systems internals, digital logic design, and AI-powered systems. Fluent in Arabic, English, and Turkish. Currently seeking an internship or junior engineering role.

EDUCATION

High School Graduation	2021
Strong STEM foundation; graduated with honours	
BSc Software Engineering	2021 — Present
Eastern Mediterranean University (EMU), Cyprus	
Building full-stack projects integrating AI, data pipelines, and system design	

EXPERIENCE & CAREER PATH

Full-Stack Development — Course Capstone	2021
LogicForge IDE & EcoTrack Analytics	
- LogicForge: browser-based digital logic IDE with K-map solver and circuit simulation - EcoTrack: real-time ecological data dashboard using D3.js and NOAA API	
Web Development	2021 — Present
Personal & Academic Projects	
- Designing and building responsive web applications using HTML, CSS, JavaScript, and Flask - Developed portfolio site with SPA architecture, Flask backend, and SQLAlchemy ORM - Experience with REST APIs, dynamic frontends, and deployment on cloud platforms	
AI & NLP Research — Personal Project	2024 — Present
PolyLingua Translator	
- Built multilingual translation pipeline for Arabic, English, and Turkish - Implemented dialect detection (MSA, Egyptian, Gulf, Levantine) - Using Helsinki-NLP transformer models with context-aware buffering	

TECHNICAL SKILLS

Languages	Python, JavaScript, C, C++, HTML, CSS
Frameworks	Flask, SQLAlchemy, React, D3.js, WebSocket
Systems	Operating Systems, Digital Logic, Computer Architecture
AI / ML	NLP, spaCy, Transformers (HuggingFace), TensorFlow basics
Databases	SQLite, SQL
Tools	Git, GitHub, Linux, VS Code, Render.com
Human Languages	Arabic (native), English (fluent), Turkish (fluent)
